Project Helpline SYNOPSIS

PRESENTING A WELL-DEFINED MODULES OF PROJECT

Referred To: Enroll No: _____
Training Head   Student Name:_____
Rahul Soni   College Name:_____

"INDEED LEARNING"

1. INTRODUCTION

Indeed learning is a software that helps the teachers to schedule tasks ,assign and provides video lecture them to the respective students.
Student can easly download and watch video lectures.
Indeed learning is one of the fundamental activities in education.
All the assignment and project are assigned with a start and end date, student update the task on completion. Teachers can view status of task and reports are being generated after evolution . By using our indeed learning portal admin/teachers can upload the assignment to a specific group of students and validate student that student are authorized or not. Students can be download and read the uploaded assignment. There is a facility to upload the respective document after completion.

2. OBJECTIVE

- The teacher can create assignment without much effort.
- Assignment and project can be assigned to the students online.
- Time – saving.
- Student can submit assignments according to the end date of the academic year.
- Which will make their lives easier by managing their untiring day to day workload easily.

- **3. Process Description :**

3.1 Decided Zones For Project :

```
                    ┌─────────────────────┐
                    │  Indeed learning    │
                    └─────────────────────┘
         ┌──────────────────┼──────────────────┐
┌──────────────────┐ ┌──────────────────┐ ┌──────────────────┐
│ 1. General Zone  │ │ 2. Student Zone  │ │   Admin Zone     │
└──────────────────┘ └──────────────────┘ └──────────────────┘
```

3.2 Project Slot – 1 (Working with General Zone)
